

CSCI-101 Programming 1

Week of Nov 7 - Lab 12b

INSTRUCTIONS

Inside your **Lab12** directory add a file named **maze1.txt** that contains text *similar* to the following.

The first line contains two integers separated by commas. The integers denote the number of rows and columns of data that follow.

The values in the subsequent rows must be between 1 and 4 (inclusively) and be separated by commas.
