

# CSCI-101 Programming 1

## Week of Nov 13 - Lab 13b

### INSTRUCTIONS

When finished with Lab13a, push the code in your **lab13** directory to GitHub.

When your code is confirmed to be on GitHub, notify your instructor. He will add a file named **MazeGame.java** to your repository. After he has added the file, pull the changes that he has made using the following command.

```
$ git pull
```

Compile the **MazeGame.java** file and review the code.
