

CSCI-101 Programming I - Lab 3c

This lab is due by 5:00 p.m. Friday, September 8. This includes pushing your .java files to GitHub.

Let's Code

Write a program in a file named Cetvrta.java that solve the problem found at

<https://open.kattis.com/problems/cetvrta>

.

Create a Kattis account at <https://open.kattis.com/register>.

Log into Kattis.

Navigate to the cetvrta page.

Submit your code to see if it passes. If not, edit the program and resubmit until it passes.

Be sure the code you submit to GitHub is the code that passes the Kattis code checker.
