

CSCI-101 Programming 1

Lab 2a

Log into cs.bridgewater.edu using the following ssh command, replacing BC-USERNAME with your Bridgewater College username.

```
ssh BC-USERNAME@cs.bridgewater.edu
```

Change your working directory to the root directory of our shared GitHub repository using the **cd** command, replacing **BC-USERNAME** with your Bridgewater College username.

```
cd github/BC_USERNAME
```

Make a directory named **csci101** (all lowercase) using the **mkdir** command.

```
mkdir csci101
```

Change your working directory to **csci101** using the **cd** command.

```
cd csci101
```

Make a directory named **labs**.

```
mkdir labs
```

Change your working directory to **labs**.

```
cd labs
```

Make a directory named **lab2**.

```
mkdir lab2
```

Change your working directory to **lab2**.

```
cd lab2
```
