CSCI-101 Review

While-loops

Write a class named **While** and in **main** do the following:

1. Write a while loop that prints the numbers between 3 and 30, on the same line.

2. Write a while loop that prints the numbers between 3 and 30 in reverse order, on the same line

3. Write a while loop that sums the numbers between 3 and 30 and prints the sum.

4. Write a while loop that sums the odd numbers between 3 and 30 and prints the sum.

5. Write a while loop that counts the number of integers between 3 and 30 that are divisible by 5 and prints the count to the screen.
