

CSCI-101 Review

For-loops

Write a class named **For** and in **main** do the following:

1. Write a for-loop that prints the numbers between 3 and 30, on the same line.
2. Write a for-loop that prints the numbers between 3 and 30 in reverse order, on the same line
3. Write a for-loop that sums the numbers between 3 and 30 and prints the sum.
4. Write a for-loop that sums the odd numbers between 3 and 30 and prints the sum.
5. Write a for-loop that counts the number of integers between 3 and 30 that are divisible by 5 and prints the count to the screen.
