

CSCI-230 Web Scripting

HOMEWORK 8 - TRANSITIONS AND ANIMATIONS

1. Read section 15.1 Web Programming Basics, 15.2 Events, and 15.3 Scripting Documents
2. Create an HTML file named a8.html, a CSS file named a8.css, and a JavaScript file named a8.js.
3. **Restriction:** the <body> element cannot have any child elements written in the HTML file.
4. Create a creative and artistic webpage that uses transitions and animations to gradually fill the screen with elements.
