Experiment 5
CSCI-230 Web Scripting
Fall 2024

Part I

Inside the **experiments** directory in your repository create a *subdirectory* named **e5**.

Inside the **e5** directory create a file named **e5.html,** a file named **e5.css**, and a file named **e5.js**.

In **csci230/index.html** add a link to **csci230/experiments/e5/e5.html**.

Part II

In **e5.html** write a web page that satisfies the following:

1. Display a carousel of images on the webpage. The carousel should:
    A. rotate between at least 5 images
    B. loop back to the first image after the last image has been displayed
    C. retrieve the images using fetch
    D. cache the images in an array, so that each image is downloaded only once
